

STATE OF INDIANA

Michael R. Pence, Governor
David R. Murtaugh, Executive Director

August 11, 2015

Dear Superintendents,

The Indiana Criminal Justice Institutes provides funding to school resource officers across the state. We believe in the value of school resource officers, and their role in working with juveniles to reinforce the importance of staying in school, acquiring an education, and ultimately succeeding in life.

We have been in partnership with the Indiana School Resource Officer Association to create a database that will capture the contributions of the school resource officers.

We wanted to inform you of this resource, which will be free and available to all school resource officers in the near future. It is designed as an application for quick use on a smart phone, tablet, or desktop computer. This tool will allow your school corporation to view the entire picture of your school and the interactions occurring between the school resource officer and students. This information will assist you with maximizing your school resource officer and other resources directed toward this program. You can find information about registering and accessing the database on the ICJI website at <http://www.in.gov/cji/2339.htm> and the SRO database can be found at <https://sro.cji.in.gov>

Please be assured we are not collecting any FERPA protected data. All the information collected will be housed on secured servers at the State.

Please contact us should you have any questions, comments, or concerns.

Sincerely,

David R. Murtaugh
Executive Director
